

Berkowits School of Electrolysis, 042732

Proprietary School Financial Aid Grants To Students

Award No: P425Q210429

Quarterly Report Ending September 30th, 2021

- 1.) Berkowits School has signed the Dept. of Ed Certification and Agreement and has been providing emergency financial aid grants to students.
- 2.) The institution has received \$57,547 to distribute as emergency financial aid grants to students. The institution is eligible for another \$37,016 after this first award is fully distributed.
- 3.) As of the quarter ending Sept 30th, Berkowits School has distributed \$10,500 as emergency grants in the manner of written checks to students.
- 4.) We anticipate to be able to issue grants to approximately 32 students.
- 5.) So far, 6 students have received grants.
- 6.) We are distributing checks totaling \$1,750 to students who meet financial need, or who haven't qualified for financial aid due to past tax returns prior to the pandemic being used to calculate their EFC. Many have lost their jobs now, and would qualify. We feel this is the most equitable way to help everyone.
- 7.) We have instructed students that these emergency grants may be used at their discretion to offset any costs they have incurred due to the pandemic including their living or travel expenses etc.
